

BIOTHERAPEUTIC DRAINAGE™ & UNDA NUMBERED COMPOUNDS

✓ Dr. Robert Abell Recommended

Physiology Prevails over Pathology

The most long lasting and effective way of restoring health to the body, is to work at an intra-cellular and extra-cellular level to remove toxins. By accomplishing this, we help support physiological functions, encouraging the body towards a state of dynamic equilibrium and self-regulation where true healing can begin. Hence, physiology will prevail over pathology.

The body has the potential to naturally eliminate toxins – no matter what the state of health. UNDA Numbered Compounds are well-adapted to the theory of homotoxicology, allowing the body to eliminate toxins in a way that supports the body's normal functions of elimination without forcing these processes. Biotherapeutic Drainage™ is a modality that should be used in every patient to address the underlying cause of the disease – not just the symptoms.

Biotherapeutic Drainage™ versus Detoxification

Elimination is a normal physiological function of the body and one of the four pillars of health (diet, drainage and elimination, psychological equilibrium and balancing of the hereditary characteristics). Detoxification forces physiological functions which may lead to a physiological disequilibrium. Biotherapeutic Drainage™ works on an extra-cellular and intra-cellular level to remove blockages – toxic accumulations, mental or emotional blocks – helping to support physiological functions, encouraging the body towards a state of dynamic equilibrium and self-regulation where true healing can begin.

UNDA Numbered Compounds in Biotherapeutic Drainage™

Utilizing UNDA Numbered Compounds in Biotherapeutic Drainage™ is key as they work at a physiological level. Any trained practitioner can incorporate UNDA Numbered Compounds into their treatment plans as it enhances the long-term effects of patient treatment. It can also be a stand-alone modality. Furthermore, UNDA Numbered Compounds fit well into the philosophy of individualized medicine, allowing for versatility in treatment approaches.

UNDA Numbered Compounds in Traditional Chinese Medicine

Traditional Chinese Medicine (TCM) specifically describes the terrain of the individual, how to build the energy of the body and how to detoxify the energy by eliminating toxins. UNDA Numbered Compounds can be incorporated into TCM since they were created to act on the terrain and the underlying theory behind the UNDA Numbered Compounds corresponds to the energetic structure of TCM. UNDA Numbered Compounds also help support the normal physiological functioning of the emunctories, organs and homeostatic systems.
